Notes

Title notes

- Source of title proper: Title of the fonds is based on the provenance.

Immediate source of acquisition

The fonds was donated by Gillian Stainsby.

Arrangement

The materials were arranged by the Archivist into a single series.

Restrictions on access

There are no access restrictions with respect to privacy: the transcripts are all open. Access to the sound recordings, however, is restricted due to the fragility of the storage medium; consult the reference archivist for more information on accessing the recordings. Copyright was not formally transferred to the Archives and therefore must be managed on a case-by-case basis; consult the reference archives for more details.

Finding aids

Series descriptions and file lists are available. Thesis acknowledgements and abstract, and interview summaries are available in the hard copy version of the finding aid maintained in the Archives Reading Room.

Series descriptions

Series F-66-1: Interviews

Date: 1988 - 1989 (date of creation)

Scope and content:

Series consists of transcripts and audio recordings arising from Gillian Stainsby's thesis. Note that all item-level Scope and content descriptions are transcriptions from the cassette cover of Stainsby's original recordings.

Physical description: 7 cm of textual records
21 sound recordings

Note:

Physical description: series includes 33 audio cassettes (originals and copies).

Arrangement:

For each interview there is a separate file for the transcripts and recording. The sound recording is treated as an item of the file. Typically there are two copies of each recording: the original audio cassette and a copy also on audio cassette later made by the Archives. In the case of one interview (file F-66-1-0-0-22, "A friend"), there is only the transcript, and no sound recording.
