Notes

Title notes

Physical condition

Many items of facsimile correspondence are fading.

Arrangement

An unknown archivist or librarian from Simon Fraser University had already gone through materials from the first accrual and sorted them into archival boxes. It is unclear whether the folders in the boxes were kept in Thesen's original order or whether the individual who put the material into boxes sorted items based on their own knowledge of the records. Additionally, please note that the previous archivist or librarian put some correspondence records in a loose chronological order, though the chronology is not always exact. The first accrual is contained in boxes 1 through 13 and the second accrual is contained in boxes 14 through 21.

Due to time constraints, the correspondence from the second accrual was not put in alphabetical order by sender. Additionally, the physical received order was maintained as the original order for the second accrual.

Series MsC-33-0-2: Writing

Date: [196-?]-2011 (date of creation)

Scope and content:

Series consists of written works by Thesen. Materials include cassette tapes, handwritten notes, drafts, unpublished works, typescripts/manuscripts of poetry, prose, articles, reviews, cassette tapes, interviews, book cover proofs, notebooks, and other materials. The series is divided into the following three sub-series: Drafts, Edits & Typescripts, Reviews & Interviews and Awards: Judging and Nominations.

Physical description: 51.97 cm of textual records

4 book cover proofs

7 cassette tapes

Language of the material:

English

Access points:

- Textual records (documentary form)
- Graphic materials (documentary form)
- Sound recordings (documentary form)

Arrangement:

Originally, there were multiple untitled folders in this sub-series that were later titled "Drafts, Edits & Typescripts." Nested within many of these folders were other folders labeled by Thesen (e.g., "VR piece in Neo-formalism"). The order of these folders has been maintained in the arrangement of this series, which is why the nine "Drafts, Edits & Typescripts" folders are spaced out in the intellectual arrangement and not all placed together.
