

ST-Paleopathology

Archaeology 332

Section: D100

Term: 2014 Spring

Instructor: Dr. Dennis Sandgathe

Office: EDB 9611

Phone: 778.782.4817

email: dms@sfu.ca

Office hours: Thursday 1:30 - 2:30

Discussion Topics: This course is designed to be a detailed introduction to our closest evolutionary cousin: the Neandertals (*Homo sapiens neanderthalensis*). This will include an examination of:
the history of Neandertal research
the climatic background of Middle Palaeolithic Eurasia
our current understanding of Neandertal: Geophylogeny; Physiology; Genetics; Subsistence; and Technology
The course will revolve mainly around lectures (with PowerPoint presentations) and the occasional film. Depending on class enrollment, there may also be a minor group discussion component.

Grading: Midterm 30%
Term paper 30%
Final exam 40%

Required Texts: There is no textbook for this course. However, there will be a number of assigned readings to go along with the major lecture topics. These will be made available on Canvas.

Recommended Texts:

Materials/Supplies:

Prerequisite/Corequisite: ARCH 131

Notes: This course is reserved for ARCH students until open enrollment on November 23, 2013.

Students requiring accommodations as a result of a disability must contact the Centre for Students with Disabilities 778.782.3112 or csdo@sfu.ca

All students are expected to read and understand SFU's policies with regard to academic honesty and student conduct (S10). These policies are available at the following web address: <http://www.sfu.ca/policies/Students/index.html>

Deferred grades will be given only on the basis of authenticated medical disability.

This outline is derived from a course outline repository database that was maintained by SFU Student Services and the University's IT Services Department. The database was retired in 2014 and the data migrated to SFU Archives in 2015.
